### SHARED CULTURE OF CARE, COMMUNICATION AND COLLABORATION

Welcome back to school!

It is with great excitement that we begin 2017 with zest and determination. The school performed well last year and we aim to do even better this year. As we move from *Good to Great*, let us bear in mind the importance of grounding ourselves on sound moral values as well as be grateful to the many opportunities that are made available to us.

In Rivervale, we hold the school values (RICHET) close to our heart as the guiding factor in all that we do. Having made her presence in Seng Kang for the past 19 years, Rivervale Primary has become an icon amongst the neighbourhood being a school that aims for excellence by individuals of character. We will continue this legacy, building on our past and harnessing our strength for the future. Let us make Rivervale a place where learning is fun and exciting.

Peace and Joy be with one and all,  
Miss Lena Seet  
Principal

If you would still like to receive the hard copy, kindly respond to the SMS that will be sent to you on 4 February, Saturday to indicate your preference.

### (b) Names of Form Teachers in the various Consortiums

For ease of reference, we have attached the list of Form Teachers and their email addresses so that you are able to communicate with your child's/ward's Form Teacher on the holistic development of your child/ward.

### (c) Daily Temperature Taking and new thermometers for Primary One students

MOE has given new Oral Digital Thermometers (ODTs) to the Primary One students of 2017. Students from other levels should have their own working thermometers. The thermometers will be used daily in class and for MOE based temperature-taking exercises which the school will be conducting from time to time.

Temperature taking-exercises serve to remind our students of the need to exercise personal responsibility and hygiene and ensure that our processes to ring-fence our school against any pandemic diseases are well put in place. We seek your understanding and cooperation in ensuring that your child/ward keeps his/her thermometer clean and in good working condition and brings his /her thermometer to school daily.

### (d) Lightening of School bags

Carrying heavy school bags put children at the risk of developing irreversible back deformities. We seek parents' support to monitor the things your child put into their school bag on a regular basis in order to lighten their school bag. Parents are encouraged to refer to your child's timetable and discourage him/her from bringing too many notebooks or unnecessary stationery.

### (e) Student Information on Health and Personal Particulars – Form A and Form B

The school would like to seek the cooperation of all parents to fill and complete **Form A** (Student Medical Record) and **Form B** (Student Personal Particulars) so that we are able to provide more effective holistic support to every Riverlite. All information will be kept confidential by the school.

*Please submit Form A and Form B to your child's form teachers latest by 13 Jan 2017, Friday.*

## 19. 2017 Gifted Education Programme (GEP) Identification Exercise for Pr 3

Mdm Hamimah, Year Head (P3 & P4 Level) [hamimah.ali@moe.edu.sg](mailto:hamimah.ali@moe.edu.sg),

Mr Ahmad Zaki, Assistant Year Head (P3 & P4 level) [ahmad.zaki.b.hassan@moe.edu.sg](mailto:ahmad.zaki.b.hassan@moe.edu.sg)

The purpose of the GEP screening exercise is to develop the intellectually gifted to fulfil their full potential in an educational environment that is designed to stimulate intellectual growth. An equally important emphasis of the GEP is the development of social responsibility and sound moral values in the students.

The GEP screening exercise will be carried out by all schools on **Wednesday, 23 Aug 2017**.

For parents/guardians who would like your child/ward to participate in the Screening Exercise, please arrange for your child/ward to participate in the Screening Exercise together with his/her peers in Rivervale Primary School on the same date.

The GEP Screening and Selection Exercises will be based on the Pr 1 to Pr 3 English Language and Mathematics syllabuses. Please note the following:

- Screening Exercise (Mathematics) All topics in the Pr 3 Mathematics syllabus are included except for topics on "Area and Perimeter", "Geometry" and "Time".
- Selection Exercise (Mathematics) All topics in the Pr 3 Mathematics syllabus are included except for Angles, Perpendicular and Parallel lines in the topic of Geometry.

**Shortlisted students** will be invited to participate in the Selection Exercise on

**Thursday, 19 October 2017** and **Friday, 20 October 2017** for English Language, Mathematics and General Ability.

The GEP Identification Exercise aims to identify suitable students with high intellectual potential. Test-preparation activities could inflate students' scores and not reflect their actual potential. Students who are not ready to handle the intellectual rigour and demands of the programme will struggle with the enriched curriculum and not benefit fully from it. Thus we urge parents/guardians not to conduct test preparation activities to prepare your child/ward for the GEP Identification Exercise.

Please do not hesitate to contact Mr Ahmad Zaki or myself at our e-mail addresses above if you require further clarifications. We thank you for your understanding and look forward to working closely with you in the development of your child/ward.
